

## WELCOME TO NORD!

Nice that you take a break here with us. In Sweden we call it: **fika!**

To surrender to the present moment and enjoy yourself fully.

To create something with meaning, we have to follow a clear appreciation process. Appreciation towards humanity and environment. That is one reason why we include care and love into our homemade, nordic creations that are made from resourceful and mostly local products. That is the moment when we really can enjoy ourselves.

If you like the Scandinavian style, we are happy to welcome you at our boutique store called „einzigwert“ next door.

Njut!

**Sabine & Team**
